### **The Regio-day**

On Saturday, 4<sup>th</sup> August the "Congress for Integral Politics" is platform for regional activities in the surroundings. Organizations and initiatives from Vorarlberg, the Allgäu (southern Germany) and eastern Switzerland will show the visitors from Belgium, Germany, Holland, Italy, Luxembourg, Portugal and Switzerland, diverse, exciting, original, forward-looking, integral projects in the region. In the courtyard of St. Arbogast there from 1.00 to 6.00 p.m. an information market with stalls will inform about the work in various areas such as social awareness, education, ethics, money, health, society, culture, nature, economy, politics and solidarity.

In addition, in the foyer of the Education Centre large documentation panels will inform about the "harvest" of work and findings from the first six days of the congress. At a press conference from 2.00 to 3.00 p.m. is shown in detail for the attention of the public, "the way we really want to live."

The integral internal culture is thereby provided by an enchanting musical accompaniment of the duo "zaubernuss". At the conclusion of the Info-market at 6.00 p.m. Randy Coray seduces the audience attending a peace song.

The kitchen of St. Arbogast offers visitors coffee, cake, ice cream and some original, regional vegetarian snacks.

At 8.00 p.m. the joint festival of finale and kick off starts with the cabaret Bewusstseinsheiterung Michael Nussbaumer, a local artist.

Finally we look forward to joint movement to the "5 Rhythms" and rollicking dancing with the ENN Institute.
