**July 2012**

Dear active members, dear supporters and friends,

our last newsletter before the Congress takes a look at the morning tuning in and the evening events.

But first organizational notes:

- At check-in you will get a conference program together with some side dishes and a name badge that also acts as participation certificate.
- Who needs a certificate of attendance, may please respond with a short note. We will keep them on at the conference.

We look forward to our personal meeting and wish us all a joyful, exciting and enriching experience in St. Arbogast. For those who cannot participate the hint again: For the most part, the Congress will be filmed and then be available on DVD.

Warm greetings from the Programme Board

*Alfred, Cécile, Gandalf, Joachim, Jörg, Romy und Ursula*

## **Morning tuning-in on the input-days**

After breakfast, our tuning-in creates an energetical field that will carry us together along the day.

On the meadow located below the conference building, surrounded by fir trees, caressed by the wind, warmed up by sunrays or cooled down by raindrops, the murmur of the stream in our ears, our feet in the grass, on the body of the Earth.

The theme blocs will be associated each with one element, and we will feel their respective qualities through meditation, encounter, body work and breathing.

We dive in the stillness of our Being, meet a You, perceive ourselves as part of a group of companions, and become active for the good of all living beings.

Furthermore, each day is associated with a colour. It would be wonderful if every participant could wear a corresponding piece of clothing. By this our unity would be visible externally.

- I. Consciousness, Wisdom and Responsibility – Spirit - Mind / AIR – Turquoise
- II. Development into a Democracy – Soul - Heart / WATER – Blue
- III. Common action, specific – Body / EARTH – Green
- IV. Regio-Day – Evolution in action - Will / FIRE – Red

The musicians of the Enn-Institute will accompany our tuning-ins.

## Evening programmes

On input-days, you can watch the films of the day's presentations.
